

THE COST OF WAR TO THE PEOPLE OF MASSACHUSETTS IS TOO GREAT!

MONEY FOR HUMAN NEEDS,

The war on Iraq has cost
Massachusetts over **\$6.9 Billion**
so far. That's over **\$2,875** per
household!

NOT FOR WAR!

Instead, the government.....

...*could have* HIRED 120,119 additional school teachers to improve our children's education

...*could have* BUILT 62,409 additional AFFORDABLE HOUSING units

...*could have* provided four year SCHOLARSHIPS at public universities to 336,011 of our children thus investing in the EDUCATION of future generations

...*could have* provided HEALTH CARE to 4,150,441 children FREE of charge

...*now wants* to cut over \$40 billion from social programs; add another \$120 billion for the war & occupation of Afghanistan & Iraq; continue tax cuts for the wealthy; increase Pentagon spending by 7%
